Inter-Tel Axxess Support Program

This support program coincides with the recent Inter-Tel Axxess retirement announcement made by Mitel on Thursday 12th March 2009.

The Inter-Tel Axxess Support program has been specifically created to support those businesses that wish to continue using their Inter-Tel Axxess System without incurring the costs of an immediate replacement but having the flexibility to upgrade at any time.

The program has five distinct and compelling features:

1. Pay monthly for your support and NOT annually therefore preserving capital and improving cash flow.
 2. No minimum contract term. Only pay for what you use.
 3. An industry leading 4 hour response for ALL major system faults as standard. Audited independently by the British Standards Institute every 6 months.
 4. A guaranteed 20% Off the Mitel 5000 replacement when you do decide to replace.
 5. Combine your monthly support payments with your line rentals / call charges and we will reduce your current support payments by a HUGE 50%.
-

Why not join the Inter-Tel Axxess User Group and receive automatic email updates when further announcements are made?

It takes less than 30 seconds to register > www.intertel-support.co.uk/register

If your business relies upon an Inter-Tel Axxess Telephone System for its communications, you should call an Inter-Tel Axxess Support specialist on **0800 131 3416**.

We will advise you on your options and update our records to keep you informed of any further changes as they are announced by Mitel.
